

How Do I Win?

Complete one of the following challenges, determined by a random dice roll (8-sider):

- **Answer a nerdy trivia question**
(It helps to get the correct answer, but humorous alternative answers may be accepted.)
- **Tell a nerdy joke**
(It will help if it's actually funny, but effort is important, too.)
- **Sing a nerdy song**
(Nerdy or not, any royalties due to the copyright holder are your responsibility.)
- **Do a nerdy dance**
(So, you think you can dance? Give it a try.)
- **Recite a nerdy poem**
(OK, it doesn't have to be nerdy, but it couldn't hurt!)
- **Roll against the dealer – High/Low**
(Roll 5 six-siders up to three times for the highest or lowest point total. Your call.)
- **Player's Choice**
(You must choose, but choose wisely.)
- **Dealer's Choice**
(Don't worry, we won't be mean.)

If you successfully complete your challenge roll again to determine your prize group (percentile dice):

(the judging criteria will be suitably lenient, so don't stress out)

1% - 50% = Small

51% - 80% = Medium

(or trade for 2 Small prizes)

81% - 99% = Large

(or trade for 2 Medium prizes or 5 Small prizes)

000% = Special! One of Each!!
